Objective

A passionate and driven Computer Science graduate with a strong foundation in web development. Eager to contribute my technical expertise and problem-solving skills to a dynamic team. Seeking an entry-level software development role to grow professionally and make a meaningful impact.

Projects

Fish Care Website

Live Demo: fish-care-app-demo.netlify.app

Jan 2025 - Present

- Built a detailed fish care platform offering species-specific data including descriptions, survival temperature, and required tank volume.
- Integrated a dynamic Tank Calculator where users input tank dimensions and fish type to get volume in gallons and fish capacity (e.g., "Tank volume: 264.17 gallons. You can keep about 26 Guppies.").
- Suggested YouTube videos for fish care based on the selected species using Rapid API integration.
- Technologies: React.js, Material UI, HTML, CSS, JavaScript, Rapid API.

Fitness App with Exercise Suggestions

Live Demo: fitness-app-demo.netlify.app

Dec 2024 - Jan 2025

- Developed a fitness application suggesting exercises categorized by muscle group (e.g., back, chest, legs).
- Embedded YouTube exercise demonstrations using motion-based videos via Rapid API.
- Designed intuitive UI using Material UI and React for easy navigation and filtering.
- Technologies: React.js, Material UI, HTML, CSS, JavaScript, Rapid API.

News Mania

Live Demo: news-mania-demo.netlify.app

Nov 2024 - Dec 2024

- Created a multi-source news aggregator app showing trending news across various categories in one interface.
- Included a custom feature for users to write and save personal notes per news story.
- Focused on fast loading, clean UI, and mobile responsiveness.
- Technologies: HTML, CSS, JavaScript.
